as for example our course<sup>425</sup> a closed curve and let us<sup>426</sup> be numbered 1 to<sup>427</sup> 1000000 then number<sup>428</sup> 1000000 on leaving<sup>429</sup> his tormentor number<sup>42a</sup> 999999 instead of<sup>42b</sup> launching forth into the<sup>42c</sup> wilderness towards an<sup>42d</sup> inexistent victim<sup>42e</sup> proceeds towards<sup>42f</sup> number 1

and number<sup>430</sup> 1 forsaken by his<sup>431</sup> victim number 2 does<sup>432</sup> not remain eternally<sup>433</sup> bereft of<sup>434</sup> tormentor since this<sup>435</sup> latter as we have seen in<sup>436</sup> the person of number<sup>437</sup> 1000000 is approaching<sup>438</sup> with all the speed he can<sup>439</sup> muster right<sup>43a</sup> leg right arm push<sup>43b</sup> pull ten yards<sup>43c</sup> fifteen yards

and three<sup>43d</sup> if only three of us and<sup>43e</sup> so numbered only<sup>43f</sup> 1 to 3 four<sup>440</sup> rather it's preferable<sup>441</sup> clearer picture if only<sup>442</sup> four of us and so<sup>443</sup> numbered only 1 to<sup>444</sup> 4

you<sup>57c</sup> may say yes and you may<sup>57d</sup> say no it depends on what<sup>57e</sup> you hear

it's no<sup>57f</sup> I'm sorry no one here knows<sup>580</sup> anyone either personally or<sup>581</sup> otherwise it's the no<sup>582</sup> that turns up I<sup>583</sup> murmur it

and<sup>584</sup> no again I'm sorry<sup>585</sup> again no one here knows<sup>586</sup> himself it's the place<sup>587</sup> without knowledge whence<sup>588</sup> no doubt its<sup>589</sup> peerlessness

whether<sup>58a</sup> four then<sup>58b</sup> revolving or a<sup>58c</sup> million four<sup>58d</sup> strangers a million strangers<sup>58e</sup> to themselves to one another<sup>58f</sup> but here I quote on<sup>590</sup> we do not revolve<sup>591</sup>

How It Is in Common Tongues is *produced*  
*on demand and hors de commerce, in an edition limited to*  
*256 copies, numbered 0-ff, of which this is number \_\_\_\_.*

*The first f copies are signed by the artists.*

*This book was composed by searching for the text of Samuel Beckett's How It Is using a universally accessible search engine, attempting to find, in sequence, the longest common phrases from How It Is that were composed by writers or writing machines other than Beckett. These phrases are quoted from a portion of the commons of language that happens to have been indexed by a universally accessible engine.*

*The notes at the bottom of each page give the shortest URL (often one of many) that we were able to retrieve for each phrase cited. The first in a sequence of citations provides, in parentheses, the date when we found the phrase on the web page given, and immediately subsequent citations will have 'id.' instead of a date, where this is the same as that last provided. The number following the date (or 'id.') is the total number of occurrences found for the phrase, as searched on that date and for the search engine we used. Note numbers are hexadecimal.*
